

Education, Grants & Programming Committee.

Agenda is simply to discuss current status and efforts in those areas.

- This includes the (excellent) annual report showing BVD's work over the past year.
- Engagement with and education of riparian landowners particularly regarding improvements to septic systems, and continued outreach and education opportunities there, considering the almost 50% positive response rate once landowners are aware they have a pollution problem.
- Whether any grant or other funding may exist to improve the Bayou's designation by the EPA as an impacted waterway.
